HANDBOOK OF DIGITAL HUMAN MODELING

RESEARCH FOR APPLIED ERGONOMICS AND HUMAN FACTORS ENGINEERING

CRC Press **The rapid introduction of sophisticated computers, services,**

telecommunications systems, and manufacturing systems has caused a major shift in the way people use and work with technology. It is not surprising that computer-aided modeling has emerged as a promising method for ensuring products meet the requirements of the consumer. The *Handbook of Digital Human Modeling* provides comprehensive coverage of the theory, tools, and methods to effectively achieve this objective. The 56 chapters in this book, written by 113 contributing authorities from Canada, China, France, Germany, the Netherlands, Poland, Sweden, Taiwan, UK, and the US, provide a wealth of international knowledge and guidelines. They cover applications in advanced manufacturing, aerospace, automotive, data visualization and simulation, defense and military systems, design for impaired mobility, healthcare and medicine, information systems, and product design. The text elucidates tools to help evaluate product and work design while reducing the need for physical prototyping. Additional software and demonstration materials on the CRC Press web site include a never-before-released 220-page step-by-step UGS-Siemens Jack™ help manual developed at Purdue University. The current gap between capability to correctly predict outcomes and set expectation for new and existing products and processes affects human-system performance, market acceptance, product safety, and satisfaction at work. The handbook provides the fundamental concepts and tools for digital human modeling and simulation with a focus on its foundations in human factors and ergonomics. The tools identified and made available in this handbook help reduce the need for physical prototyping. They enable engineers to quantify acceptability and risk in design in terms of the human factors and ergonomics.

UNFOLDING OF GOD'S PLAN

GOD'S PLAN FOR REDEMPTION

INTENSIONAL

KINGDOM ETHNICITY IN A DIVIDED WORLD

NavPress Publishing Group **When it comes to the ethnic divisions in our world, we speak often of seeking racial reconciliation. But at no point have all the different ethnicities on Earth been reconciled. Animosity, distrust, and hostility among people from various ethnicities have always existed in American history. Even in the church, we have often built walls--ethnic segregation, classism, sexism, and theological tribes--to divide God's people from each other. But it shouldn't be this way. God's people are the only people on earth who have experienced true reconciliation. Who better to enter into the ethnic tensions of our day with the hope of Jesus? In *Intensional*, pastor D. A. Horton steps into the tension to offer vision and practical guidance for Christians longing to embrace our Kingdom ethnicity, combating the hatred in our culture with the hope of Jesus Christ.**

ASIAN HANDBOOK FOR THEOLOGICAL EDUCATION AND ECUMENISM

NETWORKING

BoD - Books on Demand **Networking means to create nets of relations, where the publisher and the reader, the artist and the audience, act on the same level. The book is a first tentative reconstruction of the history of artistic networking in Italy, through an analysis of media and art projects which during the past twenty years have given way to a creative, shared and aware use of technologies, from video to computers, contributing to the creation of Italian hacker communities. The Italian network proposes a form of critical information, disseminated through independent and collective projects where the idea of freedom of expression is a central theme. In Italy, thanks to the alternative use of Internet, during the past twenty years a vast national network of people who share political, cultural and artistic views has been formed. The book describes the evolution of**

the Italian hacktivism and net culture from the 1980s till today. It builds a reflection on the new role of the artist and author who becomes a networker, operating in collective nets, reconnecting to Neoavant-garde practices of the 1960s (first and foremost Fluxus), but also Mail Art, Neoism and Luther Blissett. A path which began in BBSes, alternative web platforms spread in Italy through the 1980s even before the Internet even existed, and then moved on to Hackmeetings, to Teletstreet and networking art by different artists such as 0100101110101101.ORG, [epidemiC], Jaromil, Giacomo Verde, Giovanotti Mondani Meccanici, Correnti Magnetiche, Candida TV, Tommaso Tozzi, Federico Bucalossi, Massimo Contrasto, Mariano Equizzi, Pigreca, Molleindustria, Guerriglia Marketing, Sexyshock, Phag Off and many others.

DON'T FIRE YOUR CHURCH MEMBERS

THE CASE FOR CONGREGATIONALISM

B&H Publishing Group Church membership is not just a status, it's an office. Leaders shouldn't fire members from the responsibilities given to them by Jesus—they should train them! When members are trained, the church

grows in holiness and love, discipleship and mission. Complacency and nominalism are diminished. Jesus gives every church member an office in the church's government: to assume final responsibility for guarding the what and the who of the gospel in the church and its ministry. Similarly, Jesus gives leaders to the church for equipping the members to do this church-building and mission-accomplishing work. In our day, the tasks of reinvigorating congregational authority and elder authority must work together. The vision of congregationalism pictured in this book offers an integrated view of the Christian life. Congregationalism is biblical, but biblical congregationalism just might look a little different than you expect. It is nothing less than Jesus' authorization for living out his kingdom rule among a people on mission.

MISSION

AN ESSENTIAL GUIDE

Abingdon Press "Mission" has become, for many North American Christians, an ambiguous and often uncomfortable term. To many it brings to mind a past in which western culture was identified with the gospel in missionary practice and programs. Distressed with this history and uncertain about how to overcome it, many prefer to ignore the New Testament mandate that the church must be in mission if it is to be the church. Others swing the other way, declaring that everything the church does is mission, depriving the idea of mission of its power to define those specific actions of God which proclaim the gospel and build God's kingdom. "The church exists by missions, just as fire exists by burning." With these words of Emil Brunner, the author reminds us that to be the church is to be in mission. After describing the various "captivities of mission" which plague North American Christianity, the author argues for a robust and engaged practice of mission, beginning in congregations and extending to the broader community.

CONTEMPORARY DEVELOPMENTS AND PERSPECTIVES IN INTERNATIONAL HEALTH SECURITY

VOLUME 1

BoD - Books on Demand International health security (IHS) is a broad and highly heterogeneous area. Within this general context, IHS encompasses subdomains that potentially influence (and more specifically endanger) the well-being and wellness of humans. The general umbrella of IHS includes, but is not limited to, natural disasters, emerging infectious diseases (EID) and pandemics, rapid urbanization, social determinants of health, population growth, systemic racism and discrimination, environmental matters, civilian violence and warfare, various forms of terrorism, misuse of antibiotics, and the misuse of social media. The need for this expanded definition of health security stems from the realization that topics such as EID; food, water, and pharmaceutical supply chain safety; medical and health information cybersecurity; and bioterrorism, although important within the overall realm of health security, are not only able to actively modulate the wellness and health of human populations, but also tend to do so in a synergistic fashion. This inaugural tome of a multi-volume collection, *Contemporary Developments and Perspectives in International Health Security*, introduces many of the topics directly relevant to modern IHS theory and practice. This first volume provides a solid foundation for future installments of this important and relevant book series.

ANALOGY IN WORD-FORMATION

A STUDY OF ENGLISH NEOLOGISMS AND OCCASIONALISMS

Walter de Gruyter GmbH & Co KG This book fills a gap in lexical morphology, especially with reference to analogy in English word-formation. Many studies have focused their interest on the role played by analogy within English inflectional morphology. However, the analogical mechanism also deserves investigation on account of its relevance to neology in English. This volume provides in-depth qualitative analyses and stimulating quantitative findings in this realm.

MISSIONS

BIBLICAL FOUNDATIONS AND CONTEMPORARY STRATEGIES

Zondervan Academic “In a rapidly changing world,... the central missionary vision of the church must be constantly renewed, lest its foundations become lost in the confusion of change or its practices trapped in missionary models of the past.” In this second edition of *Missions*, long-time missionary Gailyn Van Rheenen revises and updates his classic text on Christian missions, laying sound theological and strategic foundations for the missionary of today and tomorrow. Van Rheenen helps renew the missionary vision by discussing areas such as: The history of Christian mission, and how it affects where we are today Spiritual formation for God’s mission The missionary cycle Cross-cultural communication The character and calling of missionaries Types of missionaries Church maturation Selecting mission fields The role of money in missions Four levels of involvement in missions But *Missions* is more than blackboard theory. Written by a long-time missionary, it carries the conviction and insights of one who has lived his subject. Accessible to students, practitioners, and laypeople alike, *Missions* provides a primary go-to resource for understanding and becoming involved in the dynamic activity of world missions.
