## Awakening of the Soul

## A Record of Thoughts Channeled by Souls of Humans and Aliens for a Changing Earth

iUniverse In 2002, Grace J. Scott began to receive messages from those beyond the grave. Grace felt it her duty to record their voices, their thoughts, and even their warnings. Awakening of the Soul is the amazing result. This intriguing collection of channeled thoughts from souls in heaven, other planetary systems, and other universes will benefit those seeking spiritual growth as well as those wanting information about preparing for upcoming Earth changes. Much of the material is packed with information and requires time to read and digest while other material is simple and easily understood. Presented in chronological order as received in reflexology sessions, the conversations are completely original, unedited, and unorganized, straight from the spirit itself. Some spirits channeled big lessons for the general public or gave messages to individuals while some explained disasters, politics, wars, dreams, and events in our daily lives. But all of the souls have one thing in common: they bring news that Earth is cleansing itself at a rapid pace, and they are here to assist us through the cleansing and beyond. Epic in scope, Awakening of the Soul is a vital tool for those looking to the future and to the fate of Earth itself.

## Design Analysis of Chihuahuan Polychrome Jars from North American Museum Collections

British Archaeological Reports Limited There are many examples of Chihuahuan ceramics held in North American museum collections which remain an untapped source of information on this culture. This study makes use of the unprovenanced examples of Chihuahuan polychrome jars from the collection of the Royal Ontario and Wilderness Park museums. Through a design analysis of the layout and motifs on the ceramics, Hendrickson explores the existence of trait overlap and whether decorative patterning may be indicative of temporal and spatial variation, attempting to shed light on the temporal sequence and geographical distribution of the Chihuahuan culture.
