GLOBAL EDUCATION MONITORING REPORT 2020

INCLUSION AND EDUCATION - ALL MEANS ALL

United Nations This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

WAREHOUSE MANAGEMENT

AUTOMATION AND ORGANISATION OF WAREHOUSE AND ORDER PICKING SYSTEMS

Springer Science & Business Media This book helps readers evaluate and specify the best Warehouse Management System (WMS) for their need. The advice is based on practical knowledge, describing in detail fundamental processes and technologies needed for a basic understanding. New approaches in the structure and design of WMS are presented, along with discussion of the limitations of current systems. The book shows how to operate a simple WMS based on the open-source initiative myWMS.

THE PERFORMANCE ECONOMY

Springer This updated and revised edition outlines strategies and models for how to use technology and knowledge to improve performance, create jobs and increase income. It shows what skills will be required to produce, sell and manage performance over time, and how manual jobs can contribute to reduce the consumption of non-renewable resources.

MARGINALITY

ADDRESSING THE NEXUS OF POVERTY, EXCLUSION AND ECOLOGY

Springer This book takes a new approach on understanding causes of extreme poverty and promising actions to address it. Its focus is on marginality being a root cause of poverty and deprivation. "Marginality" is the position of people on the edge, preventing their access to resources, freedom of choices, and the development of capabilities. The book is research based with original empirical analyses at local, national, and local scales; book contributors are leaders in their fields and have backgrounds in different disciplines. An important message of the book is that economic and ecological approaches and institutional innovations need to be integrated to overcome marginality. The book will be a valuable source for development scholars and students, actors that design public policies, and for social innovators in the private sector and non-governmental organizations.

THE INFORM DESIGNER'S MANUAL

Interactive Fiction Library Since its invention in 1993, Inform has been used to design hundreds of interactive novels and short stories in eight languages. This text includes a critical history of interactive writings and the university games of the 1970s. (Computer Books--Languages/Programming)

NUTRITION AND VULNERABLE GROUPS

MDPI Food insecurity is a complex 'wicked' problem that results from a range of unstable and uncertain physical, social, cultural and economic factors that limits access to nutritious food. Globally, 800 million people are under-nourished, and around 2 billion are overweight/obese or have micronutrient deficiency. These populations are largely positioned in developing countries where disease burden is high and impacts health budgets and productivity. Similarly developed countries, cities and neighbourhoods are experiencing a greater emergence of vulnerable populations. This is in part explained by the change in the food production and manufacturing, the retraction in economic climates, the increase in food price, and in some regions reduced food availability and access. Vulnerable groups include but are not limited to migrant populations, Indigenous people, elderly, pregnant women, those with disability, homeless, young children and youth. Poor nutrition at significant periods of growth and development and during life impact long term health outcomes increasing non-communicable disease prevalence, health cost and reducing economic productivity.

ISSUES AND TRENDS IN EDUCATION FOR SUSTAINABLE DEVELOPMENT

UNESCO Publishing

IT'S COMPLICATED

THE SOCIAL LIVES OF NETWORKED TEENS

Yale University Press Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.

MATERNITY AND PATERNITY AT WORK

LAW AND PRACTICE ACROSS THE WORLD

This report provides a picture of where we stand and what we have learned so far about maternity and paternity rights across the world. It offers a rich international comparative analysis of law and practice relating to maternity protection at work in 185 countries and territories, comprising leave, cash

benefits, employment protection and non-discrimination, health protection, breastfeeding arrangements at work and childcare. Expanding on previous editions, it is based on an extensive set of new legal and statistical indicators, including coverage in law and in practice of paid maternity leave as well as statutory provision of paternity and parental leave and their evolution over the last 20 years. The report also takes account of the recent economic crisis and austerity measures. It shows how well national laws and practice conform to the ILO Maternity Protection Convention, 2000 (No. 183), its accompanying Recommendation (No. 191) and the Workers with Family Responsibilities Convention, 1981 (No. 156), and offers guidance on policy design and implementation. This report shows that a majority of countries have established legislation to protect and support maternity and paternity at work, even if those provisions do not always meet the ILO standards. One of the persistent challenges is the effective implementation of legislation, to ensure that all workers are able to benefit from these essential labour rights.

CLIMATE CHANGE 2007 - IMPACTS, ADAPTATION AND VULNERABILITY

WORKING GROUP II CONTRIBUTION TO THE FOURTH ASSESSMENT REPORT OF THE IPCC

Cambridge University Press The Climate Change 2007 volumes of the Fourth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) provide the most comprehensive and balanced assessment of climate change available. This IPCC Working Group II volume provides a completely up-to-date scientific assessment of the impacts of climate change, the vulnerability of natural and human environments, and the potential for response through adaptation. Written by the world's leading experts, the IPCC volumes will again prove to be invaluable for researchers, students, and policymakers, and will form the standard reference works for policy decisions for government and industry worldwide.

MANUAL OF I. V. THERAPEUTICS - TEACHER'S EDITION

F A Davis Company

ENGINEERING

ISSUES, CHALLENGES AND OPPORTUNITIES FOR DEVELOPMENT

UNESCO This report reviews engineering's importance to human, economic, social and cultural development and in addressing the UN Millennium Development Goals. Engineering tends to be viewed as a national issue, but engineering knowledge, companies, conferences and journals, all demonstrate that it is as international as science. The report reviews the role of engineering in development, and covers issues including poverty reduction, sustainable development, climate change mitigation and adaptation. It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.--Publisher's description.

A CENTURY OF INNOVATION

THE 3M STORY

3m Company A compilation of 3M voices, memories, facts and experiences from the company's first 100 years.

STYLE MANUAL

MATERIALS FOR ARCHITECTS AND BUILDERS

Routledge Materials for Architects and Builders provides a clear and concise introduction to the broad range of materials used within the construction industry and covers the essential details of their manufacture, key physical properties, specification and uses. Understanding the basics of materials is a crucial part of undergraduate and diploma construction or architecture-related courses, and this established textbook helps the reader to do just that with the help of colour photographs and clear diagrams throughout. This new edition has been completely revised and updated to include the latest developments in materials research, new images, appropriate technologies and relevant legislation. The ecological effects of building construction and lifetime use remain an important focus, and this new edition includes a wide range of energy saving building components.

FAST FOOD NATION

THE DARK SIDE OF THE ALL-AMERICAN MEAL

Houghton Mifflin Harcourt Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

THE CAMBRIDGE HANDBOOK OF THE CHANGING NATURE OF WORK

Cambridge University Press This handbook provides an overview of the research on the changing nature of work and workers by marshalling interdisciplinary research to summarize the empirical evidence and provide documentation of what has actually changed. Connections are explored between the changing nature of work and macro-level trends in technological change, income inequality, global labor markets, labor unions, organizational forms, and skill polarization, among others. This edited volume also reviews evidence for changes in workers, including generational change (or lack thereof), that has accumulated across domains. Based on documented changes in work and worker behavior, the handbook derives implications for a range of management functions, such as selection, performance management, leadership, workplace ethics, and employee well-being. This evaluation of the extent of changes and their impact gives guidance on what best practices should be put in place to harness these developments to achieve success.

THE STATE OF THE WORLD'S LAND AND WATER RESOURCES FOR FOOD AND AGRICULTURE

MANAGING SYSTEMS AT RISK

Routledge The State of the World's Land and Water Resources for Food and Agriculture is FAO's first flagship publication on the global status of land and water resources. It is an 'advocacy' report, to be published every three to five years, and targeted at senior level decision makers in agriculture as well as in other sectors. SOLAW is aimed at sensitizing its target audience on the status of land resources at global and regional levels and FAO's viewpoint on appropriate recommendations for policy formulation. SOLAW focuses on these key dimensions of analysis: (i) quantity, quality of land and water resources, (ii) the rate of use and sustainable management of these resources in the context of relevant socio-economic driving factors and concerns, including food security and poverty, and climate change. This is the first time that a global, baseline status report on land and water resources has been made. It is based on several global spatial databases (e.g. land suitability for agriculture, land use and management, land and water degradation and depletion) for which FAO is the world-recognized data source. Topical and emerging issues on land and water are dealt with in an integrated rather than sectoral manner. The implications of the status and trends are used to advocate remedial interventions which are tailored to major farming systems within different geographic regions.

EUROPEAN BANKING SUPERVISION

THE FIRST EIGHTEEN MONTHS

European banking supervision, also known as the Single Supervisory Mechanism, is the first and arguably the main component of European banking union. In late 2014, the European Central Bank became the supervisor for the region's largest banking groups; the ECB also oversees the supervision by

national authorities of smaller banks. This Blueprint is the first in-depth study of how this ground-breaking reform is working in practice. Despite teething troubles and occasional misjudgements, this assessment finds that overall European banking supervision has been effective, demanding and broadly fair, at least for the banks under the ECB's direct watch. Even so, achieving a truly single market in banking services will require more time, further supervisory initiatives and new Europe-wide regulatory and legislative steps.

AIR FORCE HANDBOOK 1

AIRMAN

This handbook implements AFPD 36-22, Air Force Military Training. Information in this handbook is primarily from Air Force publications and contains a compilation of policies, procedures, and standards that guide Airmen's actions within the Profession of Arms. This handbook applies to the Regular Air Force, Air Force Reserve and Air National Guard. This handbook contains the basic information Airmen need to understand the professionalism required within the Profession of Arms. Attachment 1 contains references and supporting information used in this publication. This handbook is the sole source reference for the development of study guides to support the enlisted promotion system. Enlisted Airmen will use these study guide to prepare for their Promotion Fitness Examination (PFE) or United States Air Force Supervisory Examination (USAFSE).

DESIGN OF ASSISTIVE TECHNOLOGY FOR AGEING POPULATIONS

Springer Nature This book focuses on various aspects of research on ageing, including in relation to assistive technology; dignity of aging; how technology can support a greater understanding of the experience of physically aging and cognitive changes; mobility issues associated with the elderly; and emerging technologies. The 80+ age group represents an expanding market, with an estimated worth of £21.4 billion a year. Everyone is affected by this shift in demographics – we are getting older and may become carers – and we need to prepare ourselves and adjust our surroundings for longer life. Products, services and environments have been changing in response to the changing population. Presenting international design research to demonstrate the thinking and ideas shaping design, this book is a valuable resource for designers; product developers; employers; gerontologists; and medical, health and service providers; as well as everyone interested in aging.

SEIZE THE HIGH GROUND

THE ARMY IN SPACE AND MISSILE DEFENSE

Government Printing Office "[Seize the high ground is a] narrative history of the Army's aerospace experience from the 1950s to the present. The focus is on ballistic missile defense, from the early NIKE-HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced 'Star Wars' concepts studies toward the end of the century. [What is] covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission"--CMH website.

WATER IN THE MIDDLE EAST AND IN NORTH AFRICA

RESOURCES, PROTECTION AND MANAGEMENT

Springer Science & Business Media Water is the most precious and valuable natural resource in the Middle East and North Africa. It is vital for socioeconomic growth and sustainability of the environment. The editors present the latest research results related to the current water situation, as well as its significance for the peaceful coexistence of the neighbouring countries. The book focusses on the following topics: water resources, water protection, water management and water as a source of conflict. With regard to the protection of ground water and surface water in the respective areas, topics such as sewage disposal and soil protection, as well as the transfer of environmental technology are also discussed. TOC: From the Contents: Water Resources: Natural Scarcity of Water Resources in the Semi-arid and Arid Middle East and its Economical Implications; The Jordan River; Hydrology and Management of Lake Kinneret Aimed at Water Quality Protection; The Water Crisis in the Eastern Mediterranean and its Relation to Global Warming; Water Resources, Protection and Management in Palestine.- Water Protection: Groundwater Vulnerability Mapping in the Arab Region; Intermittent Water Supply and Domestic Water Quality in the Middle East; Sewage Water Treatments and Reuse in Israel.- Water Management: Water Resources Management in Palestine; Ecosan - Introduction of Closed-Loop Approaches in Wastewater Management and Sanitation; Efficient Groundwater Management for Organizations with a Small Financial Budget.- Water as Source of Conflict: Water Conflict and Water Management in the Middle East; Syria and Turkey in Water Diplomacy; Water Issue among the Riparian States of Euphrates and Tigris Transboundary Rivers.

SOCIAL POLICY IN THE EUROPEAN UNION: STATE OF PLAY 2015

The sixteenth edition of Social policy in the European Union: state of play has a triple ambition. First, it provides easily accessible information to a wide audience about recent developments in both EU and domestic social policymaking. Second, the volume provides a more analytical reading, embedding the key developments of the year 2014 in the most recent academic discourses. Third, the forward-looking perspective of the book aims to provide stakeholders and policymakers with specific tools that allow them to discern new opportunities to influence policymaking. In this 2015 edition of Social policy in the European Union: state of play, the authors tackle the topics of the state of EU politics after the parliamentary elections, the socialisation of the European Semester, methods of political protest, the Juncker investment plan, the EU's contradictory education investment, the EU's contested influence on national healthcare reforms, and the neoliberal Trojan Horse of the Transatlantic Trade and Investment Partnership (TTIP).

EXTENDING SOCIAL SECURITY TO ALL

A GUIDE THROUGH CHALLENGES AND OPTIONS

International Labour Organisation This book outlines basic concepts such as the social protection floor and the social security staircase, analyses the affordability of various approaches, and examines the results of practices around the world, especially in low- and middle-income countries.

SAMPLE PREPARATION IN METABOLOMICS

MDPI Metabolomics is increasingly being used to explore the dynamic responses of living systems in biochemical research. The complexity of the metabolome is outstanding, requiring the use of complementary analytical platforms and methods for its quantitative or qualitative profiling. In alignment with the selected analytical approach and the study aim, sample collection and preparation are critical steps that must be carefully selected and optimized to generate high-quality metabolomic data. This book showcases some of the most recent developments in the field of sample preparation for metabolomics studies. Novel technologies presented include electromembrane extraction of polar metabolites from plasma samples and guidelines for the preparation of biospecimens for the analysis with high-resolution μ magic-angle spinning nuclear magnetic resonance (HR- μ MAS NMR). In the following chapters, the spotlight is on sample preparation approaches that have been optimized for diverse bioanalytical applications, including the analysis of cell lines, bacteria, single spheroids, extracellular vesicles, human milk, plant natural products and forest trees.

EURO FIREFIGHTER

Jeremy Mills Pub Paul Grimwood has responded and worked from over a hundred fire stations in the USA and Europe. In this, his third book, he demonstrates how the very best strategies and tactical approaches from Europe and the USA may be effectively combined to enhance firefighter tactics and safety at structure fires. The book also covers and exceeds the 2007 syllabus of the European (UK) EDEXCEL CFBT Instructor Qualification (90 hours) for practical Fire Behavior Training (flashover training in ISO shipping containers and other FDS units). Euro Firefighter is for the CFBT instructor, firefighter, company officer and fire chief. The concept of teaching about flashover using ISO steel shipping containers was developed in Europe -- now read how European instructors teach fire behavior using a vast array of Fire Development Simulators (FDS). This book will also take you out onto the fire-grounds of London, New York, Madrid, Chicago, Paris, Germany and Sweden, demonstrating how similar fires are fought using different strategic approaches and showing how US and EURO firefighting tactics are gradually aligning in many areas. From tactical ventilation to air management, from Rapid Intervention Teams to high-rise firefighting and limited staffing, the author brings you the best tactics from Europe and the USA in one training manual! Written in such a way that the training officer can immediately transfer key learning points directly into training presentations, the core principles of this training package enhance firefighter safety on the fire-ground. The book also provides a LINK CODE for ongoing updates and web-based downloads. Euro Firefighter covers a broad range of issues important to anyone who steps off a fire truck at the scene of an emergency.

SHOCK WAVES

MANAGING THE IMPACTS OF CLIMATE CHANGE ON POVERTY

World Bank Publications Ending poverty and stabilizing climate change will be two unprecedented global achievements and two major steps toward sustainable development. But the two objectives cannot be considered in isolation: they need to be jointly tackled through an integrated strategy. This report brings together those two objectives and explores how they can more easily be achieved if considered together. It examines the potential impact of climate change and climate policies on poverty reduction. It also provides guidance on how to create a “win-win” situation so that climate change policies contribute to poverty reduction and poverty-reduction policies contribute to climate change mitigation and resilience building. The key finding of the report is that climate change represents a significant obstacle to the sustained eradication of poverty, but future impacts on poverty are determined by policy choices: rapid, inclusive, and climate-informed development can prevent most short-term impacts whereas immediate pro-poor, emissions-reduction policies can drastically limit long-term ones.

THE U.S. AIR FORCE IN SPACE, 1945 TO THE TWENTY-FIRST CENTURY: PROCEEDINGS

1945 TO THE 21ST CENTURY: PROCEEDINGS, AIR FORCE HISTORICAL FOUNDATION SYMPOSIUM

Department of the Air Force Contains papers presented at the Air Force Historical Foundation Symposium, held at Andrews Air Force Base, Maryland, on September 21-22, 1995. Topics addressed are: Pt. 1, The Formative Years, 1945-1961; Pt. 2, Mission Development and Exploitation Since 1961; and Pt. 3, Military Space Today and Tomorrow. Includes notes, abbreviations & acronyms, an index, and photographs.

SUSTAINABLE LAND MANAGEMENT (SLM) IN PRACTICE IN THE KAGERA BASIN

LESSONS LEARNED FOR SCALING UP AT LANDSCAPE LEVEL

Food & Agriculture Org. This book compiles a set of 26 papers that present the direct, practical experiences and results of a large number of local practitioners and experts that supported the Transboundary agro-ecosystem management project of the Kagera river basin (Kagera TAMP) during the period 2010-2015. The book has been compiled by the Land and Water Division of the Food and Agriculture Organization of the United Nations (FAO) to reflect the wide range of experiences, approaches and tools that were used for promoting participatory diagnostics, adaptive management and adoption of sustainable land and agro-ecosystem management (SLaM) practices from farm to watershed / landscape scale. The project was supported by the Global Environment Facility (GEF), the Governments of the four countries that share the transboundary basin - Burundi, Rwanda, the United Republic of Tanzania and Uganda and project partners. It is hoped that the lessons learned are considered and taken up by the Governments and the TerrAfrica partnership for scaling up and mainstreaming SLaM as part of the wider set of lessons learned from the 36 projects in 26 countries under the TerrAfrica Strategic Investment programme, including Kagera TAMP.

BIOSYSTEMS ENGINEERING: BIOFACTORIES FOR FOOD PRODUCTION IN THE CENTURY XXI

Springer Science & Business Media This book presents new food production systems (for plants and animals) involving agrochemicals that increase in a controlled manner the bioactives content, under greenhouse conditions. Moreover, conception and design of new instrumentation for precision agriculture and aquiculture contributing in food production is also highlighted in this book.

EXPLORING OMNICHANNEL RETAILING

COMMON EXPECTATIONS AND DIVERSE REALITIES

Springer This book compiles the current state of knowledge on omnichannel retailing, a new concept in which all sales and interaction channels are considered together, and which aims to deliver a seamless customer experience regardless of the channel. It highlights case studies and examples related to each of the many barriers to an omnichannel approach, demonstrating not just success stories, but also failures. While omnichannel has already been recognized as an emerging retail trend, the articles in this book fill an important gap in research on the topic. Providing readers with essential insights on the omnichannel strategy and its implementation, the book will also stimulate academic discussion on this emerging trend.

TAMING LIQUID HYDROGEN

THE CENTAUR UPPER STAGE ROCKET, 1958-2002

THE NEW PUBLIC DIPLOMACY

SOFT POWER IN INTERNATIONAL RELATIONS

Springer After 9/11, which triggered a global debate on public diplomacy, 'PD' has become an issue in most countries. This book joins the debate. Experts from different countries and from a variety of fields analyze the theory and practice of public diplomacy. They also evaluate how public diplomacy can be successfully used to support foreign policy.

DAC GUIDELINES AND REFERENCE SERIES PROMOTING PRO-POOR GROWTH POLICY GUIDANCE FOR DONORS

POLICY GUIDANCE FOR DONORS

OECD Publishing Focusing on pro-poor growth and income poverty, Promoting Pro-Poor Growth: Policy Guidance for Donors identifies binding constraints and offers policies and strategies to address them.

GLOBAL VALUE CHAINS AND WORLD TRADE

PROSPECTS AND CHALLENGES FOR LATIN AMERICA

United Nations Publications "Selection of original papers presented at the international conference 'Latin America's Prospects for Upgrading in Global Value Chains,' held on 14-15 March 2012, at Colegio de Mexico, Mexico City"--Title page vers

CORCORAN GALLERY OF ART

AMERICAN PAINTINGS TO 1945

Hudson Hills Press This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than

600 objects dating from 1740 to 1945.

THE FINANCIAL AND ECONOMIC CRISIS OF 2008-2009 AND DEVELOPING COUNTRIES

United Nations Publications As a response to the global financial and economic crisis that began in 2008, many developing and emerging-market economies undertook resolute countercyclical monetary and fiscal actions, which paralleled those of the developed countries. These policy responses contributed significantly to the recovery of the world economy in 2010 and 2011. In particular, the strong and fast responses of Brazil, China and India helped mitigate deflationary risks and avoid a repetition of the Great Depression of the early 1930s. On the other hand, reforms of financial regulation and supervision are taking time to advance, and little progress has been achieved so far in implementing measures to reduce global imbalances and to avoid a malfunctioning of the international exchange-rate system. These would contribute to greater coherence between the international trading and financial systems, and to creating a more stable international economic environment for development. This is a collection of papers that contribute to the debate on these topics, putting the South at centre stage. It examines how the countries of the South were affected by the global economic and financial crisis, and how they responded to it.

FLEXIBLE HOUSING

Routledge Flexible housing is housing that can adjust to the changing needs of the user and accommodate new technologies as they emerge. Flexible Housing by Jeremy Till and Tatjana Schneider examines the past, present and future of this important subject through over 160 international examples. Specially commissioned plans, printed to scale, together with over 200 illustrations and diagrams provide fascinating detail and allow direct visual comparisons to be made. Combining history, theory and design the book explains the social and economic benefits that can be achieved and shows the various ways it has been and can be delivered. The book ends with an accessible guide to how flexible housing might be designed and constructed today to achieve adaptable and ultimately sustainable buildings. Housing designers, housing managers and students of architecture, construction and housing will find this book of immense value both as a comprehensive reference and design manual.
