While the structure of the previous version has been maintained, this book offers evidence-based concepts where available and reflects many significant changes in the field of orofacial pain. For example, an entire chapter is now devoted to cervical disorders to emphasize the close relationships between some orofacial pain disorders and cervical pain disorders and to cast greater attention on their differences and similarities. Because they constitute a major part of orofacial pain and affect so many, temporomandibular disorders are the primary topic of several chapters as well as a major focus of the chapter of classification. Other important topics covered in detail include neuropathic pain conditions, odontogenic pain, and mucogingival disorders. This long-awaited edition arms clinicians with new insights and procedures for assessing, diagnosing, and managing patients who present with symptoms of orofacial pain. **Bob and Tom Get a Dog "Siblings Bob and Tom get a dog with spots. Using a framework derived from studies of early medieval kingship, he assesses each phase of William's life to establish why so many trusted William to invade England in 1066 and the consequences of this on the history of the so-called Norman Conquest after the Battle of Hastings and for generations to come. A leading historian of the period, Bates is notable for having worked extensively in the archives of northern France and discovered many eleventh- and twelfth-century charters largely unnoticed by English-language scholars. Taking an innovative

approach, he argues for a move away from old perceptions and controversies associated with William's life and the Norman Conquest. This deeply researched volume is the scholarly biography for our generation. **Distributed Systems Concepts and Design** [Pearson Education](#) Provides a broad and up-to-date account of the principles and practice of distributed system design. **Orofacial Disorders Current Therapies in Orofacial Pain and Oral Medicine** [Springer](#) This cutting-edge book is a quick reference guide to the evidence-based evaluation, diagnosis, and management of the broad spectrum of orofacial disorders. Each chapter is devoted to a particular disease or disorder and presents advances in our understanding of the condition, the most recent evaluation and diagnostic strategies, and up-to-date treatment approaches. In addition, strategies for integration of care into routine dental practice are explained, and information provided on how to comprehensively diagnose and manage orofacial disorders. The coverage encompasses the latest technological advances in the field, such as novel pharmaceuticals, diagnostic tools, gene transfer techniques, radiotherapy modalities, and a vast array of interdisciplinary and multidisciplinary approaches including complementary and alternative therapies for orofacial disorders. Although the management of orofacial disorders is emerging as a distinct field of dentistry, many dentists and physicians are unfamiliar with recent advances in the care of patients with these disorders including orofacial pain, oral lesions and cancer, malodor, xerostomia, obstructive sleep apnea, bruxism and oral parafunctional behaviors, temporomandibular disorders, occlusal dysesthesias, orofacial neuropathic pains, and headaches. This book, written by world class experts, is deliberately geared to the level of understanding of a clinician. It will serve as an ideal evidence-based reference and source of specific clinical recommendations in daily practice. **Austria in the First Cold War, 1945-55 The Leverage of the Weak** [Springer](#) At the height of the first Cold War in the early 1950s, the Western powers worried that occupied Austria might become 'Europe's Korea' and feared a Communist takeover. The Soviets exploited their occupation zone for maximum reparations. American economic aid guaranteed Austria's survival and economic reconstruction. Their military assistance turned Austria into a 'secret ally' of the West. Austrian diplomacy played a vital role in securing the Austrian treaty in bilateral negotiations with Stalin's successors in the Kremlin demonstrating the leverage of the weak in the Cold War. **Civil Affairs and Military Government North-west Europe, 1944-1946** Discusses plans for revival of the administration and economy in the liberated territories of North-West Europe. **The Gift of Story A Wise Tale about what is Enough** A heartwarming story, perfect for the holidays, is beautifully rendered by the noted storyteller and Jungian analyst who brought readers **Women Who Run with the Wolves**. Original. **The Libyan Anarchy Inscriptions from Egypt's Third Intermediate Period** [Society of Biblical Lit](#) Contemporary with the Israelite kingdom of Solomon and David, the Nubian conqueror Piye (Piankhy), and the Assyrian Assurbanipal, Egypt's Third Intermediate Period is of critical interest not only to Egyptologists but also to biblical historians, Africanists, and Assyriologists. Spanning six centuries and as many dynasties, the turbulent era extended from approximately 1100 to 650 B.C.E. This volume, the first extensive collection of Third Intermediate Period inscriptions in any language, includes the primary sources for the history, society, and religion of Egypt during this complicated period, when Egypt was ruled by Libyan and Nubian dynasties and had occasional relations with Judah and the encroaching, and finally invading, Assyrian Empire. It includes the most significant texts of all genres, newly translated and revised. This volume will serve as a source book and companion for the most thorough study of the history of the period, **Kitchen's The Third Intermediate Period in Egypt**. **Waltzing Into the Cold War The Struggle for Occupied Austria** [Texas A&M University Press](#) These halting efforts, complicated by the difficulties of managing the occupation along with Britain, France, and the Soviet Union, exacerbated an already monumental undertaking and fueled the looming Cold War confrontation between East and West." **Coca-Colonization and the Cold War The Cultural Mission of the United States in Austria After the Second World War** [Univ of North Carolina Press](#) Reinhold Wagnleitner argues that cultural propaganda played an enormous part in integrating Austrians and other Europeans into the American sphere during the Cold War. In **Coca-Colonization and the Cold War**, he shows that 'Americanization' was the result not only of market forces and consumerism but also of systematic planning on the part of the United States. Wagnleitner traces the intimate relationship between the political and economic reconstruction of a democratic Austria and the parallel process of cultural assimilation. Initially, U.S. cultural programs had been developed to impress Europeans with the achievements of American high culture. However, popular culture was more readily accepted, at least among the young, who were the primary target group of the propaganda campaign. The prevalence of Coca-Cola and rock 'n' roll are just two examples addressed by Wagnleitner. Soon, the cultural hegemony of the United States became visible in nearly all quarters of Austrian life: the press, advertising, comics, literature, education, radio, music, theater, and fashion. Hollywood proved particularly effective in spreading American cultural ideals. For Europeans, says Wagnleitner, the result was a second discovery of America. This book is a translation of the Austrian edition, published in 1991, which won the Ludwig Jedlicka Memorial Prize. **The Cold War in Asia The Ancient Egyptian Book of Thoth A Demotic Discourse on Knowledge and Pendant to the Classical Hermetica** [Otto Harrassowitz Verlag](#) The composition, which the editors entitle the "Book of Thoth", is preserved on over forty Graeco-Roman Period papyri from collections in Berlin, Copenhagen, Florence, New Haven, Paris, and Vienna. The central witness is a papyrus of fifteen columns in the Berlin Museum. Written almost entirely in the Demotic script, the Book of Thoth is probably the product of scribes of the "House of Life", the temple scriptorium. It comprises largely a dialogue between a deity, usually called "He-who-praises-knowledge" (presumably Thoth himself) and a mortal, "He-who-loves-knowledge". The work covers such topics as the scribal craft, sacred geography, the underworld, wisdom, prophecy, animal knowledge, and temple ritual. Particularly remarkable is one section (the "Vulture Text") in which each of the 42 nomes of Egypt is identified with a vulture. The language is poetic; the lines are often clearly organized into verses. The subject-matter, dialogue structure, and striking phraseology raise many issues of scholarly interest; especially intriguing are the possible connections between this Egyptian work, in which Thoth is called "thrice-great", and the

classical Hermetic Corpus, in which Hermes Trismegistos plays the key role. The first volume comprises interpretative essays, discussion of specific points such as the manuscript tradition, script, and language. The core of the publication is the transliteration of the Demotic text, translation, and commentary. A consecutive translation, glossary, bibliography, and indices conclude the first volume. The second volume contains photographs of the papyri, almost all of which reproduce their original size. Churchill's Cold War The Politics of Personal Diplomacy [Yale University Press](#) En dybtgående, veldokumenteret analyse af britisk udenrigspolitik i gennem de første 10 efterkrigsår, herunder bl. a. den engelsk-amerikansk-franske manøvre for at afværge Sovjetunionens bestræbelser for at genforene Tyskland. Amenhotep III ruled for thirty-eight years, from c.1391-1353 BC, during the apex of Egypt's international and artistic power. Arielle P. Kozloff situates Amenhotep in his time, chronicling not only his life but also the key political and military events that occurred during his lifetime and reign, as well as the evolution of religious rituals and the cult of the pharaoh. She further examines the art and culture of the court, including its palaces, villas, furnishings and fashions. Through the exploration of abundant evidence from the period, in the form of both textual and material culture, Kozloff richly re-creates all aspects of Egyptian civilization at the height of the Mediterranean Bronze Age. Austria 1945-1955 Studies in Political and Cultural Re-emergence The year 1995 marks two decisive anniversaries in the history of modern Austria: 50 years since the ending of the German occupation and 40 years since the signing of the State Treaty and the ending of the Allied occupation. This book will focus on the first ten years of post-war Austria at a time when this period is under critical and popular scrutiny. 'This is a valuable contribution to our knowledge of the critical first ten years of Austria's postwar history . . . readable, well documented and informative . . . There is much food for thought; some of it may even cause indigestion in Austria if, as one hopes, the book finds a wide readership there.' (Forum for Modern Language Studies) Inside the Kremlin's Cold War From Stalin to Khrushchev Presents the authors' theory about the sovietization of Eastern Europe, and examines the communications between Mao, Stalin, and Kim Il Sung that brought about the Korean War The American Occupation of Austria Planning and Early Years [Praeger](#) This book documents American planning for the occupation of Austria after World War II. The authors show how plans made during the war had to be changed in the face of military and political realities and the postwar years of frustration and hope, success and failure, especially until 1950. Despite the Allied intrusion, they demonstrate how the Austrians were able to defy the Allies and achieve their dream of economic and political survival within the framework of a democratic national government. the Oriental Institute special exhibit **Picturing the Past: Imaging and Imagining the Ancient Middle East** (on exhibit February 7 through September 2, 2012). **Picturing the Past** presents paintings, architectural reconstructions, facsimiles, models, photographs, and computer-aided reconstructions that show how the architecture, sites, and artifacts of the ancient Middle East have been documented. It also examines how the publication of those images have shaped our perception of the ancient world, and how some of the more "imaginary" reconstructions have obscured our real understanding of the past. The exhibit and catalog also show how features of the ancient Middle East have been presented in different ways for different audiences, in some cases transforming a highly academic image into a widely recognized icon of the past. **Jeweler's Resource A Reference of Gems, Metals, Formulas and Terminology for Jewelers** Jeweler's Resource is written as a unique & practical tool for the bench jeweler. In this first volume of the **Liberation Trilogy**, Rick Atkinson shows why no modern reader can understand the ultimate victory of the Allied powers without a grasp of the great drama that unfolded in North Africa in 1942 and 1943. Beginning with the daring amphibious invasion in November 1942, **An Army at Dawn** follows the British and American armies as they fight the French in Morocco and Algeria, and then take on the Germans and Italians in Tunisia. Battle by battle, an inexperienced and sometimes poorly led army gradually becomes a superb fighting force. Central to the tale are the extraordinary but fallible commanders who come to dominate the battlefield: Eisenhower, Patton, Bradley, Montgomery and Rommel. **Russia's Road to the Cold War Diplomacy, Warfare, and the Politics of Communism, 1941-1945** Studies the events and policies which led the Soviet Union into the Cold War detailing the way in which Stalin conceived and executed the decisions resulting in the partitioning of Europe **Egypt's Dazzling Sun Amenhotep III and His World Reign**.
