USER GUIDANCE IN BUSINESS PROCESS MODELLING

Logos Verlag Berlin GmbH *Business process modelling is referred to as a complex, time consuming, and error prone task. The correction and improvement of badly designed process models becomes increasingly expensive in the later phases of the process management life cycle. This thesis develops the principles of guided process modelling and provides a contribution towards simplifying process modelling activities. The general research question this thesis answers is what are the difficulties in the usage of process modelling tools and which methods, techniques, and tools can guide users in modelling processes to target the existing problems. The question is addressed by following a research methodology of design sciences. Amongst others, it includes a detailed analysis of the research problem, a definition of the objective, the design and development of solutions, and an evaluation of the developed concepts. In summary, the thesis presents innovative concepts to support modellers and provides a step towards end-user enablement in process modelling.*

ADVANCED INFORMATION SYSTEMS ENGINEERING

27TH INTERNATIONAL CONFERENCE, CAISE 2015, STOCKHOLM, SWEDEN, JUNE 8-12, 2015, PROCEEDINGS

Springer *This book constitutes the proceedings of the 27th International Conference on Advanced Information Systems Engineering,*

CAiSE 2015, held in Stockholm, Sweden, in June 2015. The 31 papers presented in this volume were carefully reviewed and selected from 236 submissions. They were organized in topical sections named: social and collaborative computing; business process modeling and languages; high volume and complex information management; requirements elicitation and management; enterprise data management; model conceptualisation and evolution; process mining, monitoring and predicting; intra- and inter-organizational process engineering; process compliance and alignment; enterprise IT integration and management; and service science and computing. The book also contains the abstracts of 3 keynote speeches and 5 tutorials, presented at the conference.

THE ONE AND ONLY IVAN VOCABULARY ACTIVITIES

Teacher Created Materials *These vocabulary activities for The One and Only Ivan incorporate key skills from the Common Core. The activities integrate vocabulary with a study of the text. Includes text-dependent questions, definitions, and text-based sentences.*

THE AMERICAN JOURNEY

McGraw-Hill/Glencoe

CLOSE READING LITERATURE ACTIVITIES FOR GRADES 2-3 (SET A)

Teacher Created Materials *Students analyze three children's books using key skills from the Common Core. Close reading of the text is required to answer text-dependent questions. Included are student pages with the text-dependent questions as well as suggested answers.*

LITERATURE-BASED VOCABULARY ACTIVITIES FOR GRADES 2-3 (SET A)

Teacher Created Materials *These vocabulary activities for three popular children's books incorporate key skills from the Common Core. The activities integrate vocabulary with a study of the texts. Includes text-dependent questions, definitions, and text-based sentences.*

STANDARDS-BASED EDITING GUIDE

LEVEL 3

Teacher Created Materials *The Teacher's Guide includes standards-based lessons, scoring rubrics, examples of corrected practice*

tests, and complete background information.

WORLD HISTORY

DIFFERENTIATED INSTRUCTION FOR K-8 MATH AND SCIENCE

IDEAS, ACTIVITIES, AND LESSON PLANS

Routledge *This book offers practical recommendations to reach every student in a K-8 classroom. Research-based and written in a teacher-friendly style, it will help teachers with classroom organization and lesson planning in math and science. Included are math and science games, activities, ideas, and lesson plans based on the math and science standards. This book will help your students to develop positive attitudes and raise competency in math and science.*

SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS

GOVERNMENT-WIDE INDEX TO FEDERAL RESEARCH & DEVELOPMENT REPORTS

PRIMARY SOURCE FLUENCY ACTIVITIES: WORLD CULTURES

Teacher Created Materials *Grab your passport to discover primary sources related to each of eight different cultures with activities to help teach important fluency strategies. While learning about people and cultures from around the world, students make content-area connections, develop fluent and meaningful oral reading, and develop vocabulary and word decoding skills. Included with each text is a history connection, a vocabulary connection, and extension ideas. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports Common Core State Standards. 192pp.*

GENOME MINING AND SYNTHETIC BIOLOGY IN MARINE NATURAL PRODUCTS DISCOVERY

MDPI *In recent years, marine genomics has become a rapidly growing field, helped by the large amount of information that is becoming available to the international scientific community. Taking into account the current excitement in the field of marine biotechnology, this Special Issue entitled "Genome Mining and Synthetic Biology in Marine Natural Product Discovery" aims to to*

assess the impact of these molecular approaches on the discovery of bioactive compounds from marine organisms. The term “genome mining” is used to identify all bioinformatic investigations aimed at detecting the biosynthetic pathways of bioactive natural products and their possible functional and chemical interactions. Several studies are now reporting on marine organisms. Oceans cover nearly 70% of the Earth’s surface and host a huge ecological, chemical, and biological diversity. The natural conditions of the sea favor, in marine organisms, the production of a large variety of novel molecules with great pharmaceutical potential. Marine organisms are unique in their structural and functional features compared to terrestrial ones. Innovation in this field is very rapid, as revealed by the funding of several Seventh Framework Programme (FP7) and Horizon 2020 projects under the topic “Blue Growth”, with the urgent goal of discovering new drugs.

PERIOPERATIVE DIAGNOSTIC AND INTERVENTIONAL ULTRASOUND

Elsevier Health Sciences This reference equips you to perform a full range of diagnostic and interventional procedures using ultrasound technology. Written by experts in ultrasonography, it follows an evidence-based-medicine approach, exploring the latest ultrasound applications for regional anesthesia and pain relief procedures, as well as diagnostic and critical care medicine. A companion DVD shows you how to perform the techniques discussed in the text. Presents the unparalleled, practice-proven experience of top authorities in ultrasound. Equips you to perform ultrasound-guided arterial cannulation, central venous access, and difficult peripheral venous access · general ultrasound in the ICU and trauma setting, TEE, and transcranial Doppler · ultrasound-guided nerve blocks and procedures for chronic pain · and more. Features a consistent chapter format, with sections entitled "Sonoatomy" · "How to do it?" · and "Evidence and Literature," to make the information you need easy to find. A bonus DVD featuring nearly 100 video clips demonstrates how to perform the procedures described in the text.

THE ONE AND ONLY IVAN CLOSE READING AND TEXT-DEPENDENT QUESTIONS

Teacher Created Materials Students analyze *The One and Only Ivan* using key skills from the Common Core. Close reading of the text is required to answer text-dependent questions. Included are student pages with the text-dependent questions as well as suggested answers.

CANADIAN CLINICAL NURSING SKILLS AND TECHNIQUES E-BOOK

Elsevier Health Sciences *Introducing the only fully comprehensive skills text on the market, distinctly for Canadian students! Canadian Clinical Nursing Skills and Techniques helps equip you with the skills you need to successfully care for patients within the Canadian social and institutional context. Building on the strength of Clinical Nursing Skills & Techniques' comprehensive coverage of over 200 basic, intermediate and advanced skills, this textbook features nearly 1,000 full-colour photographs and drawings, a nursing process framework, step-by-step instructions with rationales, and a focus on critical thinking and evidence-informed practice. Written*

by the highly respected author team of Anne Griffin Perry, Patricia A. Potter, Wendy Ostendorf, and Canadian author Shelley L. Cobbett, it offers all the guidance and tools you need to perform nursing skills with complete confidence! Comprehensive coverage includes over 200 basic, intermediate, and advanced nursing skills. Streamlined theory content in each chapter features a quick, easy-to-read bullet format to help reduce repetition and emphasize the clinical focus of the book. Unique! Evidence-Informed Nursing Practice chapter covers the entire process of conducting research, including collecting, evaluating, and applying evidence from published research. Unique! Unexpected Outcomes and Related Interventions sections alert you to what might go wrong and how to appropriately intervene. Clinical Debriefs case-based review questions at the end of each chapter focus on issues such as managing conflict, care prioritization, patient safety, and decision-making to help you better prepare for the clinical setting. Nursing process framework incorporates the areas of delegation and collaboration; reporting and recording; safety guidelines; and teaching, pediatric, geriatric, and home care considerations. Basic skills presented in streamlined procedural guidelines format makes it easy learn and review basic nursing skills. Clinical Decision Points within skills address key safety issues or possible skill modifications for specific patient needs. Rationales for each skill step explain why steps are performed in a specific way, including their clinical significance and benefit, and incorporate the latest research findings. Video clip icons indicate video clips that are related to skills and procedures in the book and related lessons in Nursing Skills Online.
