The Purple Cloud

Lulu.com "If now a swell from the Deep has swept over this planetary ship of earth, and I, who alone chanced to find myself in the furthest stern, as the sole survivor of her crew... What then, my God, shall I do?." The Purple Cloud is widely hailed as a masterpiece of science fiction and one of the best "last man" novels ever written. A deadly purple vapor passes over the world and annihilates all living creatures except one man, Adam Jeffson. He embarks on an epic journey across a silent and devastated planet, an apocalyptic Robinson Crusoe putting together the semblance of a normal life from the flotsam and jetsam of his former existence. As he descends into madness over the years, he becomes increasingly aware that his survival was no accident and that his destiny - and the fate of the human race - are part of a profound, cosmological plan.

Snow Crash

Penguin UK The only relief from the sea of logos is within the well-guarded borders of the Burbclaves. Is it any wonder that most sane folks have forsaken the real world and chosen to live in the computer-generated universe of virtual reality? In a major city, the size of a dozen Manhattans, is a domain of pleasures limited only by the imagination. But now a strange new computer virus called Snow Crash is striking down hackers everywhere, leaving an unlikely young man as humankind's last best hope.

Library of Alexandria

Four-Day Planet

I went through the gateway, towing my equipment in a contragravity hamper over my head. As usual, I was wondering what it would take, short of a revolution, to get the city of Port Sandor as clean and tidy and well lighted as the spaceport area. I knew Dad's editorials and my sarcastic news stories wouldn't do it. We'd been trying long enough. The two girls in bikinis in front of me pushed on, still gabbling about the fight one of them had had with her boy friend, and I closed up behind the half dozen monster-hunters in long trousers, ankle boots and short boat-jackets, with big knives on their belts. They must have all been from the same crew, because they weren't arguing about whose ship was fastest, had the toughest skipper, and made the most money. They were talking about the price of tallow-wax, and they seemed to have picked up a rumor that it was going to be cut another ten centisols a pound. I eavesdropped shamelessly, but it was the same rumor I'd picked up, myself, a little earlier...

Twelve Years a Slave

Prabhat Prakashan "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Mystery of Easter Island

[Lulu.com](#) "All the seashore is lined with numbers of stone idols, with their backs turned towards the sea, which caused us no little wonder, because we saw no tool of any kind for working these figures." So wrote, a century and a half ago, one of the earliest navigators to visit the Island of Easter in the South-east Pacific. Ever since that day passing ships have found it incomprehensible that a few hundred natives should have been able to make, move, and erect numbers of great stone monuments, some of which are over thirty feet in height; they have marvelled and passed on. As the world's traffic has increased Easter Island has still stood outside its routes, quiet and remote, with its story undeciphered. What were these statues of which the present inhabitants know nothing?... Whence came the people who reached this remote spot? Did they arrive from South America, 2,000 miles to the eastward? Or did they sail against the prevailing wind from the distant islands to the west?...

Rewilding the Land, the Sea, and Human Life

[University of Chicago Press](#) **As an investigative journalist, Monbiot found a mission in his ecological boredom, that of learning what it might take to impose a greater state of harmony between himself and nature. He was not one to romanticize undisturbed, primal landscapes, but rather in his attempts to satisfy his cravings for a richer, more authentic life, he came stumbled into the world of restoration and rewilding. When these concepts were first introduced in 2011, very recently, they focused on releasing captive animals into the wild. Soon the definition expanded to describe the reintroduction of animal and plant species to habitats from which they had been excised. Some people began using it to mean the rehabilitation not just of particular species, but of entire ecosystems: a restoration of wilderness. Rewilding recognizes that nature consists not just of a collection of species but also of their ever-shifting relationships with each other and with the physical environment. Ecologists have shown how the dynamics within communities are affected by even the seemingly minor changes in species assemblages. Predators and large herbivores have transformed entire landscapes, from the nature of the soil to the flow of rivers, the chemistry of the oceans, and the composition of the atmosphere. The complexity of earth systems is seemingly boundless."**

Northmen

[Head of Zeus](#) **A magisterial history of the Vikings. 'Haywood has made this period of history accessible to all' All About History. 'Haywood's lucid explanations of the cultures of the Danes, Swedes, and Norwegians are vital to understanding the motivations for their movements' Kirkus Reviews. The violent and predatory society of Dark Age Scandinavia left a unique impact on the history of medieval Europe. From their chill northern fastness, Norse warriors, explorers and merchants raided, traded, and settled across wide areas of Europe, Asia and the North Atlantic from the late 8th to the mid-11th century. Northmen narrates their story focusing on places where key events were played out, from the sack of**

Lindisfarne in 793 to the murder in Iceland in 1241 of the saga-writer Snorri Sturluson. Such episodes are fascinating in themselves, but also shed crucial light on the nature of Viking activity - its causes, effects, and the reasons for its decline. In 800 the Scandinavians were barbarians in longships bent on plunder and rapine; by 1200, their homelands were an integral part of Latin Christendom. John Haywood tells, in authoritative but compellingly readable fashion, the extraordinary story of the Viking Age.

Military Aircraft Markings 2002

abc Military Aircraft Markings 2002 has been fully revised to include the huge number of changes that have affected military aircraft serials over the past year. Two new types of helicopter - the Apache AH1 and Merlin HC3 - have entered service with the Army Air Corps and the Royal Air Force respectively, whilst the last RAF VC10K2 tankers have flown their last. Reflecting the RAF's changing commitment in the post-Cold War era, the RAF Germany base at Bruggen was gradually wound down during the course of the year, with its units redeployed back to the UK; this marks the effective end of the permanent RAF presence in Germany. However, Not all the news was good, as during the course of the year several high profile accidents at airshows resulted in several casualties amongst both aircrew and aircraft. abc Military Aircraft Markings 2002 reflects the continuing debate about Britain's defence capabilities with its comprehensive listing of all of Britain's military aircraft and helicopters. Ronny Barr Profiles

British Two Seaters

HarperTempest Artist Ronny Barr, a member of director Sir Peter Jackson's New Zealand-based Wingnut Wings team, presents the first collection of his astonishingly detailed First World War aircraft profiles - British Two-Seaters of the Great War. Two-seater aircraft were the workhorses of the Royal Flying Corps and from 1918 the Royal Air Force, operated in a wide variety of roles such as training, artillery spotting, reconnaissance, communications, coastal patrol and even bombing. Some, such as the B.E.2c and R.E.8, became notorious while others such as the Bristol F.2B fighter proved popular and reliable. What they lacked in glamour and aesthetic appeal, these aircraft made up for with their purposeful looks, practical design and do-it-all usefulness over the battlefield. This book features 260 meticulously researched profiles of the war's most important and iconic British two-seaters: the Royal Aircraft Factory B.E.2a to B.E.2g, F.E.2b, F.E.2d and R.E.8; Avro 504, Vickers F.B.5, Sopwith 11/2 Strutter, Armstrong Whitworth F.K.8, Bristol F.2B and Airco DH.4, DH.9 and DH.9A.
