AMBASSADOR MORGENTHAU'S STORY

[Library of Alexandria](#) **WHEN I** began writing these reminiscences of my ambassadorship, Germany's schemes in the Turkish Empire and the Near East seemed to have achieved a temporary success. The Central Powers had apparently disintegrated Russia, transformed the

Baltic and the Black seas into German lakes, and had obtained a new route to the East by way of the Caucasus. For the time being Germany dominated Serbia, Bulgaria, Rumania, and Turkey, and regarded her aspirations for a new Teutonic Empire, extending from the North Sea to the Persian Gulf, as practically realized. The world now knows, though it did not clearly understand this fact in 1914, that Germany precipitated the war to destroy Serbia, seize control of the Balkan nations, transform Turkey into a vassal state, and thus obtain a huge oriental empire that would form the basis for unlimited world dominion. Did these German aggressions in the East mean that this extensive programme had succeeded? As I picture to myself a map which would show Germany's military and diplomatic triumphs, my experiences in Constantinople take on a new meaning. I now see the events of those twenty-six months as part of a connected, definite story. The several individuals that moved upon the scene now appear as players in a carefully staged, superbly managed drama. I see clearly enough now that Germany had made all her plans for world dominion and that the country to which I had been sent as American Ambassador was one of the foundation stones of the Kaiser's whole political and military structure. Had Germany not acquired control of Constantinople in the early days of the war, it is not unlikely that hostilities would have ended a few months after the Battle of the Marne. It was certainly an amazing fate that landed me in this great headquarters of intrigue at the very moment when the plans of the Kaiser for controlling Turkey, which he had carefully pursued for a quarter of a century, were about to achieve their final success. For this work of subjugating Turkey, and transforming its army and its territory into instruments of Germany, the Emperor had sent to Constantinople an ambassador who was ideally fitted for the task. The mere fact that the Kaiser had personally chosen Baron Von Wangenheim for this post shows that he had accurately gauged the human qualities needed in this great diplomatic enterprise.
