## Math with Bad Drawings

## Illuminating the Ideas That Shape Our Reality

**Black Dog & Leventhal** A hilarious reeducation in mathematics-full of joy, jokes, and stick figures-that sheds light on the countless practical and wonderful ways that math structures and shapes our world. In *Math With Bad Drawings*, Ben Orlin reveals to us what math actually is; its myriad uses, its strange symbols, and the wild leaps of logic and faith that define the usually impenetrable work of the mathematician. Truth and knowledge come in multiple forms: colorful drawings, encouraging jokes, and the stories and insights of an empathetic teacher who believes that math should belong to everyone. Orlin shows us how to think like a mathematician by teaching us a brand-new game of tic-tac-toe, how to understand an economic crises by rolling a pair of dice, and the mathematical headache that ensues when attempting to build a spherical Death Star. Every discussion in the book is illustrated with Orlin's trademark "bad drawings," which convey his message and insights with perfect pitch and clarity. With 24 chapters covering topics from the electoral college to human genetics to the reasons not to trust statistics, *Math with Bad Drawings* is a life-changing book for the math-estranged and math-enamored alike.

## Middle School's a Drag, You Better Werk!

**Penguin** In this heartfelt and hilarious new novel from Greg Howard, an enterprising boy starts his own junior talent agency and signs a thirteen-year-old aspiring drag queen as his first client. Twelve-year-old Mikey Pruitt--president, founder, and CEO of Anything, Inc.--has always been an entrepreneur at heart. Inspired by his grandfather Pap Pruitt, who successfully ran all sorts of businesses from a car wash to a roadside peanut stand, Mikey is still looking for his million-dollar idea. Unfortunately, most of his ideas so far have failed. A baby tornado ran off with his general store, and the kids in his neighborhood never did come back for their second croquet lesson. But Mikey is determined to keep at it. It isn't until kid drag queen Coco Caliente, Mistress of Madness and Mayhem (aka eighth grader Julian Vasquez) walks into his office (aka his family's storage/laundry room) looking for an agent that Mikey thinks he's finally found his million-dollar idea, and the Anything Talent and Pizzazz Agency is born! Soon, Mikey has a whole roster of kid clients looking to hit it big or at least win the middle school talent show's hundred-dollar prize. As newly out Mikey prepares Julian for the gig of a lifetime, he realizes there's no rulebook for being gay--and if Julian can be openly gay at school, maybe Mikey can, too, and tell his crush, dreamy Colton Sanford, how he feels. Full of laughs, sass, and hijinks, this hilarious, heartfelt story shows that with a little effort and a lot of love, anything is possible.

## Illinois Math Connects

### Concepts, Skills, and Problems Solving, Course 2

McGraw-Hill/Glencoe Math Connects: Concepts, Skills, and Problem Solving was written by the authorship team with the end results in mind. They looked at the content needed to be successful in Geometry and Algebra and backmapped the development of mathematical content, concepts, and procedures to PreK to ensure a solid foundation and seamless transition from grade level to grade level. The series is organized around the new NCTM Focal Points and is designed to meet most state standards. Math Connects focuses on three key areas of vocabulary to build mathematical literacy, intervention options aligned to RtI, and a comprehensive assessment system of diagnostic, formative, and summative assessments.
