Calculus: Early Transcendentals

Cengage Learning Known for accuracy, precision, and rigor, Soo Tan now brings those same qualities to the Calculus course. With his clear, concise writing style, and use of relevant, real world examples, Tan introduces abstract mathematical concepts with his intuitive approach that captures student interest without compromising mathematical rigor. In keeping with this emphasis on conceptual understanding, each exercise set begins with concept questions and each end-of-chapter review section includes fill-in-the-blank questions which help students master the definitions and theorems in each chapter. Additionally, many questions asking for the interpretation of graphical, numerical, and algebraic results are included among both the examples and the exercise sets. Hidden

Oxford University Press - Children 'Inhaling deep breaths I wait for it to begin. The battle I've been waiting my whole life to fight.' A group of vicious hunters are drawing dangerously close to discovering the secrets of the draki (descendants of dragons with the ability to shift into human form). Reluctantly, Jacinda realizes that running away to be with her beloved Will is no longer an option while the safety of her draki pride is at stake. Jacinda vows to use every last breath of fiery determination to protect the pride and for the right to control her own destiny. But when the battle is over, Jacinda must decide where her heart truly lies . . . with the pride or with Will?

Penn Station, New York

Louis Stettner is one of the last living members of the avant-garde New York School of Photography. His Penn Station series of the late 1950s represents some of his most important work, gathered here in a single form for the first time. The series is less a portrait of now-vanished building, though the station makes itself felt by its shadowy spaces and glowing surfaces, than a study of people at once in transit and in suspension. For Stettner, 'it was a spacious and dramatic arena where people in the act of travelling went through a mixture of excitement, a silent patience for waiting, and an honest fatigue', and he found the project exhilarating. However, when completed, the photographs weren't deemed 'newsworthy' enough for publication. But with time and distance their significance has deepened, and this body of work has become recognized as a major work of art.

Modes

Japan's Empire Disaster

A former judge with a passion for history, Jean Sénat Fleury was born in Haiti and currently lives in Boston. He wrote several historical books, such as: The Stamp Trial, Jean-Jacques Dessalines: Words from Beyond the Grave, Toussaint Louverture: The Trial of the Slave Trafficking, Adolf Hitler: Trial in Absentia in Nuremberg, The Trial of Osama Bin Laden, Hirohito Guilty or Innocent: The Trial of the Emperor. His new book, Japan's Empire Disaster, provides an understanding of the expansionist policy practiced by Japan during the end of the nineteenth and the first period of the twentieth century. From the adoption of the Meiji constitution in 1889 and the first period of the Shōwa era (1927-1945), the military controlled the Japanese constitutional government. The result was years of political instability, more internal conflicts, violence, murders, assassinations, overseas aggression, and war crimes. The book demonstrates that in Japan, during the Pacific War, the real driving force of the war was the Imperial Japanese Army and the Imperial Japanese Navy. Hirohito, as supreme commander, gave full support to the army and navy. On multiple occasions, he sanctioned many government policies. In fact, he was responsible for the atrocities that the Japanese troops committed in Asia during the Pacific War. Japan's Empire Disaster is a book of information and training. The book describes Japan's opening to modernization with the 1853 arrival of commodore Matthew Calbraith Perry in the country, and also details the history of the wars launched by Emperor Meiji and Emperor Hirohito to build Japan's empire in the nineteenth and the twentieth centuries.

Perspective of Nudes

Positive Lightning

Bink Books Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path."

Camera in London

Devil's Claim

Generations ago, he died for her. Now, it's her turn. Pride kept them from looking at one another, but their bodies could not lie. Recognition lived in their souls, rekindling memories of passion, love, betrayal....and death. Apache Elder Aidan Stringfellow, V, is a very wealthy man with one wish - to free his only son, the brilliant, yet abrasive David, from the curse that has plagued his family for

generations. When his controversial plan for a cure is revealed, shock and disbelief are only the beginning, for David has deadly, yet beguiling secrets of his own. Choosing to honor Aidan's wishes, David and Katala unwittingly awaken an ancient evil desperate to lay claim to the last-born Stringfellow - David. The tumultuous consequences of a vengeful pact spanning generations, defies time, tradition, and death itself. Katala finds herself falling in love with a man whose gaze and touch ignite long-forgotten passion, propelling her to fight for his life. She unearths one devastating clue after another on her winding journey toward the truth, but unseen forces escalate their attack as truth collides with myth. Clinging desperately to her own sanity, she must find a way to reconcile the two, for even her own identity comes into question. Trust no one. Not even David. Time is running out. Promises will be kept, and if the devil has his way, souls will be claimed.

Helmut Newton

Private Property

Schirmer/Mosel Verlag Gmbh Through their inimitable mixture of eroticism, subdued elegance and decadent luxury, Newton's pictures reflect in the highest aesthetic quality an obsession with human vanity - from female exhibitionism to male voyeurism. With technical perfection, an extremely detailed style and a relentless directness, Newton staged the neverending psychodrama that contrasts glamour with the need for admiration, self-confidence with the desire for self-presentation, and Eros with Thanatos. Private Property was originally a three-part portfolio containing 45 b&w photographs. It includes Newton's best work from the period 1972-1983 - an exquisite assortment of fashion shots, portraits and erotic motifs which are all based on real location and luxurious lifestyles. The entire sequence of pictures from the Private Property portfolio is included in our book which first appeared in 1989.

Residential Building Codes Illustrated

A Guide to Understanding the 2009 International Residential Code

John Wiley & Sons An easy-to-use illustrated guide to building codes for residential structures As the construction industry moves to a single set of international building codes, architects and construction professionals need an interpretive guide to understand how the building code affects the early design of specific projects. This newest addition to Wiley's series of focused guides familiarizes code users with the 2009 International Residential Code® (IRC) as it applies to residential buildings. The book provides architects, engineers, and other related building professionals with an understanding of how the International Residential Code was developed, and how it is likely to be interpreted when applied to the design and construction of residential buildings. • User-friendly visual format that makes finding the information you need quick and easy • The book's organization follows the 2009 International Residential Code itself • Nearly 900 illustrations, by architectural illustrator Steven Jurozek in the style of noted illustrator and author Frank Ching, visualize and explain the codes • Text written by experienced experts who have been instrumental in gaining acceptance for the new unified building code This book is an essential companion to the IRC for both emerging practitioners and experienced practitioners needing to understand the new IRC.

Outland

Phaidon Press The seminal work by photographer and artist Roger Ballen, re‐released in an expanded edition with never‐before-seen images from Ballen's archive. The culmination of nearly 20 years of work, Outland marked Ballen's move from documentary photography into the realms of fiction and propelled him into the international spotlight. Disturbing, exciting and impossible to forget, Ballen's images captured people living on the fringes of South African society. His powerful psychological studies influenced a generation of artists and still resonate today. First published in 2001, Outland is back in print and expanded to include 50 never‐before‐seen images from Ballen's archive with illuminating new commentary from the artist himself.

Practitioner's Guide to Assessing Intelligence and Achievement

John Wiley & Sons A complete guide to key intelligence and achievement tests and their effective use The tools used in the assessment process have changed dramatically in recent years. School and clinical psychologists need a comprehensive yet focused resource to which they can turn to learn the basics of key intelligence and achievement tests and how to use them in their assessments of children and adults. With its practical and straightforward presentation, Practitioner's Guide to Assessing Intelligence and Achievement provides that resource. Coedited by two well-known and respected scholars and researchers, Jack Naglieri and Sam Goldstein, the content in this timely book combines traditional and new conceptualizations of intelligence as well as ways to measure achievement. Truly readable and user-friendly, this book provides professionals with a single source from which to examine ability and achievement tests along the same general criteria. Each chapter is written by a leading scholar and test developer and is consistently structured for easy comparison of each test that is examined. Coverage includes: The theory underlying each test Description of each test Tips for administering and scoring each test Standardization, norms, and reliability of each scale Practical guidance for the use of each test Correspondence of each test to IDEA A practical tool designed to aid clinical psychologists in understanding the strengths and weaknesses of the various tests presented, Practitioner's Guide to Assessing Intelligence and Achievement provides students and practitioners with the information they need for their practice and testing efforts to be consistent with recent updates in the field and how those assessment instruments relate to changes in the laws that influence test use.

Self

A Study in Ethics and Endocrinology

Elsevier SELF: A Study in Ethics and Endocrinology considers the psycho-physical mechanisms and reactions in human nature and destiny. This book is composed of seven chapters and begins with a description of the complexity of human body and mind, specifically their physical basis and nature of functioning. These topics are followed by a presentation on the issues of homosexuality and hermaphroditism in human, as well as the role of endocrine system in these issues. The discussion then shifts to the psychiatric and psychological aspects of diverse human personality. A chapter examines the psychological distinction between male and female mind functioning. The last chapter focuses on the central problem of human ethics, the so-called ""free will"". This book will prove useful to psychologists, psychiatrists, and research workers who are interested in human nature.

Sociology for Pharmacists

An Introduction

CRC Press Sociology for Pharmacists: An Introduction is written specifically for professionals and students in pharmacy who are newcomers to the study of sociology. It introduces the key concepts of sociology and demonstrates their importance and application to pharmacy practice in the 21st century. It is unique in its role as the only text to introduce sociology specifically to pharmacists. Rather than an exhaustive treatment, the book provides a concise introduction to major perspectives in sociology-drawing on research evidence pertaining to health, illness, and professional practice-which will inform and enhance pharmacy practice. It offers an overview of sociology for rather than sociology of pharmacy, and will both inform practitioners and stimulate informed research into the social aspects of pharmacy practice. Key issues covered include: Key sociological concepts and perspectives Contemporary developments in pharmacy practice and pharmacy's professional status A review of research into the way people react to illness and look after their health How and why illness and disease are influenced by gender, ethnicity, and social class Health education and pharmacists' role in promoting health and ensuring appropriate medicine usage Social research methods Pharmacists are frequently encouraged to broaden their day-to-day practice. This timely book does just that by encouraging pharmacists to become more involved with advising clients, managing medicines, and supporting the promotion of health. In addition to providing an overview of these topics, the book also reviews the relevant research, and directs readers to further information.

RNA Turnover in Eukaryotes: Nucleases, Pathways and Analysis of mRNA Decay

Academic Press Specific complexes of protein and RNA carry out many essential biological functions, including RNA processing, RNA turnover, RNA folding, as well as the translation of genetic information from mRNA into protein sequences. Messenger RNA (mRNA) decay is now emerging as an important control point and a major contributor to gene expression. Continuing identification of the protein factors and cofactors, and mRNA instability elements responsible for mRNA decay allow researchers to build a comprehensive picture of the highly orchestrated processes involved in mRNA decay and its regulation. Covers the nonsense-mediated mRNA decay (NMD) or mRNA surveillance pathway Expert researchers introduce the most advanced technologies and techniques to identify mRNA processing, transport, localization and turnover, which are central to the process of gene expression Offers step-by-step lab instructions, including necessary equipment and reagents

Standard C++ IOStreams and Locales

Advanced Programmer's Guide and Reference

Addison-Wesley Professional Standard C++ provides a foundation for creating new, improved, and more powerful C++ components. IOStreams and locales are two such major components for text internationalization. As critical as these two APIs are, however, there are few resources devoted to explaining them. "Standard C++ IOStreams and Locales" fills this informational gap. It provides a comprehensive description of, and reference to, the iostreams and locales classes, showing how to put them to use and offering advanced information on customizing and extending their basic operation. Written by two experts involved with the development of the standard, this book reveals the rationale behind the design of the APIs and points out their potential pitfalls. This book serves as

both a guide and a reference to C++ components. Part I explains iostreams, what they are, how they are used, their underlying architectural concepts, and the techniques for extending the iostream framework. Part II introduces internationalization and shows you how to adapt your program to local conventions. Readers seeking an initial overview of the problem domain will find an explanation of what internationalization and localization are, how they are related, and how they differ. With examples, the authors show the differences among cultural conventions, how C++ locales can be used to address such differences, and how locale framework can be extended to handle further, nonstandard cultural conventions. "Standard C++ IOStreams and Locales" Explains formatting and error indication features of iostreams in detail Describes underlying concepts of the iostreams framework Demonstrates implementation of i/o operations for user-defined types Shows techniques for implementing extended stream and stream buffer classes Introduces internationalization Explains how to use standard features for internationalization Demonstrates techniques for implementation of user-defined internationalization services IOStreams and locales serve as a foundation library that provides a number of ready-to-use interfaces, as well as frameworks that can be customized and extended. The class reference to C++ IOStreams and locales completes this comprehensive resource, which belongs in the libraries of all intermediate and advanced C++ programmers. 0201183951B04062001

New York Labor Laws Enacted in America Unchained

Random House The plan was simple. Go to America. Buy a second-hand car. Drive coast-to-coast without giving any money to The Man™. What could possibly go wrong? Dismayed by the relentless onslaught of faceless American chains muscling in where local businesses had once thrived, Dave Gorman set off on the ultimate American road trip - in search of the true, independent heart of the U S of A. He would eat cherry pie from local diners, re-fuel at dusty gas stations and stock up on supplies from Mom and Pop's grocery store. At least that was the idea. But when did you last see an independent gas station? Gamely, Dave beds down in a Colorado trailer park, sleeps in an Oregon forest treehouse, and even spends Thanksgiving with a Mexican family in Kansas. But when his road trip mutates into an odyssey of near-epic proportions and he finds himself being threatened at gun point in Mississippi, Dave starts to worry about what's going to break down next. The car... or him?
