## **SKETCHING USER EXPERIENCES: GETTING THE DESIGN RIGHT AND THE RIGHT DESIGN**

---

Morgan Kaufmann Sketching User Experiences approaches design and design thinking as something distinct that needs to be better understood—by both designers and the people with whom they need to work— in order to achieve success with new products and systems. So while the focus is on design, the approach is holistic. Hence, the book speaks to designers, usability specialists, the HCI community, product managers, and business executives. There is an emphasis on balancing the back-end concern with usability and

engineering excellence (getting the design right) with an up-front investment in sketching and ideation (getting the right design). Overall, the objective is to build the notion of informed design: molding emerging technology into a form that serves our society and reflects its values. Grounded in both practice and scientific research, Bill Buxton's engaging work aims to spark the imagination while encouraging the use of new techniques, breathing new life into user experience design. Covers sketching and early prototyping design methods suitable for dynamic product capabilities: cell phones that communicate with each other and other embedded systems, "smart" appliances, and things you only imagine in your dreams Thorough coverage of the design sketching method which helps easily build experience prototypes—without the effort of engineering prototypes which are difficult to abandon Reaches out to a range of designers, including user interface designers, industrial designers, software engineers, usability engineers, product managers, and others Full of case studies, examples, exercises, and projects, and access to video clips that demonstrate the principles and methods

### **A SUCCESSFUL APPROACH TO RAAM**

---

The Race Across America (RAAM) is a nonstop, 3,000-mile bicycle race with a twelve-day limit. The race course traverses deserts and mountains in all kinds of conditions including extreme temperatures, wind, rain, and fog. Racers typically sleep less than four hours per day. The Race Across America is the toughest ultracycling race in the world. It requires physical and mental toughness, but also organization, planning, and an efficient, dedicated, well-trained crew. "One Million Pedal Strokes" tells the story of how rookie Keith Wolcott completed RAAM in 2014, with his wife Ellen as his crew chief. It gives racer, crew chief, and crew perspectives of the race. It contains details about planning and details about decisions that must be made, with sections on potential problems, strategy, training, the mental aspect, a goal pace, crew training, nutrition, clothing, equipment, and recovery---all aimed to be useful for prospective RAAM racers.

---

### **A STORY OF A FATHER AND A SON, A STORY OF A LIFE AND A LEGACY**

---

Simon and Schuster A powerful, honest, and inspiring tribute to the incredible life of Richard Burke, the founder of Trek Bicycle Corporation, written by his son John. Richard Burke, known to many as "The Big Guy," was a legend. With his friend Bevil Hogg, he founded the Trek Bicycle Corporation in 1976 and then went on to establish the company as one of the leading bicycle companies in the world. He was a man who called his son, John, his best friend. Indeed, they did many great things together: ran the Boston Marathon, followed the Tour de France throughout France, and later ran Trek together. In March 2008, he passed away after complications of heart surgery. The Big Guy touched people's lives in countless ways, and his passing was deeply emotional for many. Now John (current president of Trek Bicycle) has written a powerful tribute to the incredible life his father led and the ways in which he

was an inspiring businessman, leader, and person. Taking readers deep into the history of Trek, John shares how his father taught, trained, and instilled in him the confidence and desire to be a leader. A portrait of a great man, the book culminates with John telling his father on his deathbed of their twenty greatest moments together. This is an intimate portrayal of a father-son relationship filled with poignant experiences and lessons on how to get the most out of life.

## **TRAINING AND RACING WITH A POWER METER, 2ND ED.**

---

VeloPress Hunter Allen and Andy Coggan, PhD have completely revised the book that made power meters understandable for amateur and professional cyclists and triathletes. Power meters have become essential tools for competitive cyclists and triathletes. No training tool can unlock as much speed and endurance as a power meter--for those who understand how to interpret their data. A power meter displays and records exactly how much energy a cyclist expends, which lends unprecedented insight into that rider's abilities and fitness. With the proper baseline data, a cyclist can use a power meter to determine race strategy, pacing, and tactics. Training and Racing with a Power Meter makes it possible to exploit the incredible usefulness of the power meter by explaining how to profile strengths and weaknesses, measure fitness and fatigue, optimize workouts, time race readiness, and race using power. This new edition: Enables athletes to predict future performance and time peak form Introduces fatigue profiling, a new testing method to pinpoint weaknesses Includes two training plans to raise functional threshold power and time peaks for race day Offers 75 power-based workouts tuned for specific training goals This updated edition also includes new case studies, a full chapter on triathlon training and racing, and improved 2-color charts and tables throughout. Training and Racing with a Power Meter, will continue to be the definitive guide to the most important training tool ever developed for endurance sports.

## **THE REUNION**

---

Luster Editions Book 5 of The Marketplace Series by Laura Antoniou. In previous books in the Marketplace series, readers have gone

behind the scenes at a slave auction, an owner's home, a trainer's house, and even the ephemeral world of the annual trainers' Academy. In -The Reunion- we visit a vacation resort for a Marketplace -family- gathering, where slaves, former slaves, trainers, and their spouses, significant others and family members can relax, let their hair down, and connect with each other. But the -reunion- that matters most is that of Robin Cassidy (the slave from -The Slave-) and her first trainer, Chris Parker (the trainer from -The Trainer-). Of course the vacation resort isn't just any resort, it's Kaleigh Castle, a centuries-old Irish castle that is now a luxury hotel and happens to be where Chris learned many of the skills and practices that have made him so sought-after in the Marketplace. And while everyone enjoys their two most favorite indoor sports--gossip and sex--trouble is afoot. A nosy tabloid reporter thinks he's onto something: a real-life international slave trading ring. Can Chris keep the world from learning the truth about The Marketplace, but accept the truth about his feelings regarding Robin, Anderson, and Jiro at the same time? About the author: Laura Antoniou is the award-winning author of The Marketplace Series, The Killer Wore Leather, The Catalyst, and other works of BDSM and alternative sexuality, as well as the editor of Leatherwomen and No Safewords: Tales from the Marketplace. In 2001 she was awarded the John Preston Short Story award, given annually by the National Leather Association for the best BDSM fiction.

## **DAUGHTERS IN MY KINGDOM**

---

The Church of Jesus Christ of Latter-day Saints In the first meeting of the Relief Society, Sister Emma Smith said, "We are going to do something extraordinary." She was right. The history of Relief Society is filled with examples of ordinary women who have accomplished extraordinary things as they have exercised faith in Heavenly Father and Jesus Christ. Relief Society was established to

help prepare daughters of God for the blessings of eternal life. The purposes of Relief Society are to increase faith and personal righteousness, strengthen families and homes, and provide relief by seeking out and helping those in need. Women fulfill these purposes as they seek, receive, and act on personal revelation in their callings and in their personal lives. This book is not a chronological history, nor is it an attempt to provide a comprehensive view of all that the Relief Society has accomplished. Instead, it provides a historical view of the grand scope of the work of the Relief Society. Through historical accounts, personal experiences, scriptures, and words of latter-day prophets and Relief Society leaders, this book teaches about the responsibilities and opportunities Latter-day Saint women are given in Heavenly Father's plan of happiness.

## **12 SIMPLE SOLUTIONS TO SAVE AMERICA**

---

A nearly \$19 trillion debt. A 74,608-page tax code. An increase in global temperatures. A broken Social Security system. These are just some of the problems plaguing our nation. While politicians are quick to offer lip service, they are slow -- or non-existent -- with solutions. Americans are frustrated with the lack of leadership as evidenced by Congress' 10 percent approval rating. Now is the time for simple, bold changes that will alter the direction of this nation. Drawing on more than three decades of business experience, John Burke applies his tested problems-and-solutions approach and independent thinking to tackle the complex problems that America faces. In *12 Simple Solutions to Save America*, Burke proposes concrete solutions to fix these issues and challenges Americans to resist the status quo and change what elected officials are unwilling or unable to change. Americans have a civic duty to make the tough decisions that improve the lives of citizens over the long-term. It can be done, but it will not happen by accident.

### **16 NONPARTISAN SOLUTIONS TO SAVE AMERICA**

---

"And sometime, at some point, do something for your country." That quote from Pulitzer Prize-winning historian David McCullough resonated so deeply with Trek Bicycle President John Burke that he set out to write a book laying out his vision for the country, an America that can once again be a shining city on a hill. Burke says it's time to cut through the political fog and deal with the facts: The U.S. is facing serious, long-term problems, and politicians in Washington, D.C. are ignoring them. These critical issues can be resolved, he says, with the determination and shared sacrifice of the American people. From battling climate change to saving Social Security, from reducing the risk of nuclear war to rebuilding crumbling roads and bridges, from campaign finance reform to improving the health of Americans, John Burke offers his 16 Nonpartisan Solutions for putting the United States on a stronger foundation. This is his Presidential Playbook, a plan for America's future--and a call for all Americans to come together and ... do something for our country.

**THE COLLECTED POEMS**

---

Penguin UK Blended with the intricacies of European and Urdu traditional cultures, the poetic works of Agha Shahid Ali had the power to transform the ordinary into something extraordinary. The Veiled Suite: The Collected Poems is an anthology of his life works that spans to thirty years of his career as a poet and six successful volumes that he had the chance to publish during his lifetime. This book opens with his last poetic composition The Veiled Suite: The Collected Poems, a canzone, which was published posthumously. He had penned this poem a year prior to his death. This book contains some of his famous poems like Postcard from Kashmir, A Lost Memory of Delhi, Snowmen, Cracked Portraits, Story of a Silence, Poets on Bathroom Walls, Now No Longer Little, Medusa, The Blessed Word: A prologue, Some Visions of the World Cashmere, New Delhi Airport, I have Loved, and many more remarkable poems. From his early works to his mature translations of Ghazals, the readers can evidently see his progression from his directly descriptive poetic works to the dynamic and stratified compositions of his later collections in this book. This is the underlying factor that adds to make The Veiled Suite: The Collected Poems, the ultimate book for his fans.

**SCHWINN**

---

## THE BEST PRESENT EVER

---

Rowman & Littlefield For many children of the sixties, the gift of a Schwinn was a ticket to freedom, a chance to feel the wind on their face and the steady rotation of rubber at their feet. The Schwinn took many through their childhood adventures, with memories filled of after school, free-range bike rides around the neighborhood with friends, the late afternoon sun shining off of the gleaming painted frame and stainless steel fenders. The 1960s and 70s saw a boom of Schwinn Sting-Rays, which appealed to young riders who had to have the hottest "muscle" bike in town, and sold like hotcakes to parents everywhere scrambling to get the best Christmas present ever for their kids. From its early years dominating the youth market with Sting-Rays to the teen-friendly Varsity and Continental models to its most recent parent-friendly iterations of the Easy-Steer and Roadster Trikes, the Schwinn weaves itself through 120 years of American history. For many, the Schwinn will be forever tied to the memories of their childhood, to a simpler time of freedom, laughter, and endless wonder. Schwinn: The Best Present Ever is a visual celebration of this American icon, with a complementary narrative throughout that tells the Schwinn story.

## THE BOOK OF L

---

Springer Science & Business Media This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

**SHANGHAI ON THE METRO**

---

**SPIES, INTRIGUE, AND THE FRENCH BETWEEN THE WARS**

---

University of California Press Secret agents, gun runners, White Russians, and con men—they all play a part in Michael B. Miller's strikingly original study of interwar France. Based on extensive research in security files and a mass of printed sources, Shanghai on the Métro shows how a distinctive milieu of spies and spy literature emerged between the two world wars, reflecting the atmosphere and concerns of these years. Miller argues that French fascination with intrigue between the wars reveals a far more assured and playful national mood than historians have hitherto discerned in the final decades of the Third Republic. But the larger history set in motion by World War I and the subsequent reading of French history into global history are the true subjects of this work. Reconstituting through his own narratives the histories of interwar travel and adventure and the willful turning of contemporary affairs into a source of romance, Miller recovers the ambience and special qualities of the age that produced its intrigues and its tales of spies. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out

and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1994.

## **THE CYCLIST'S TRAINING BIBLE**

---

VeloPress Coach Joe Friel is the most trusted name in endurance sports coaching, and his *Cyclist's Training Bible* is the most comprehensive and reliable training resource ever written for cyclists. This new edition of the bestselling book includes all of the latest advances in training and technology. Using this book, cyclists can create a comprehensive, self-coached training plan that is both scientifically proven and shaped around their personal goals. Friel empowers athletes with every detail they need to consider when planning a season, lining up a week of workouts, or preparing to race. This fourth edition includes extensive revisions on the specifics of how to train and what to eat. Friel explains how cyclists can: best gauge intensity with power meters and other new training technology to maximize form and fitness and reduce fatigue; more knowledgeably and accurately make changes to their annual training plan over the course of a season; dramatically build muscular endurance with strength training; improve body composition and recovery with smarter nutrition. With more case studies to draw from and multiple contingency plans for those times when training doesn't progress as planned, *The Cyclist's Training Bible* continues to be the definitive guide to optimal cycling performance.
